

**Oracle Hyperion Planning and Reports  
Firefox Setup/XUL Add-on Install**

## Installing Remote XUL Manager

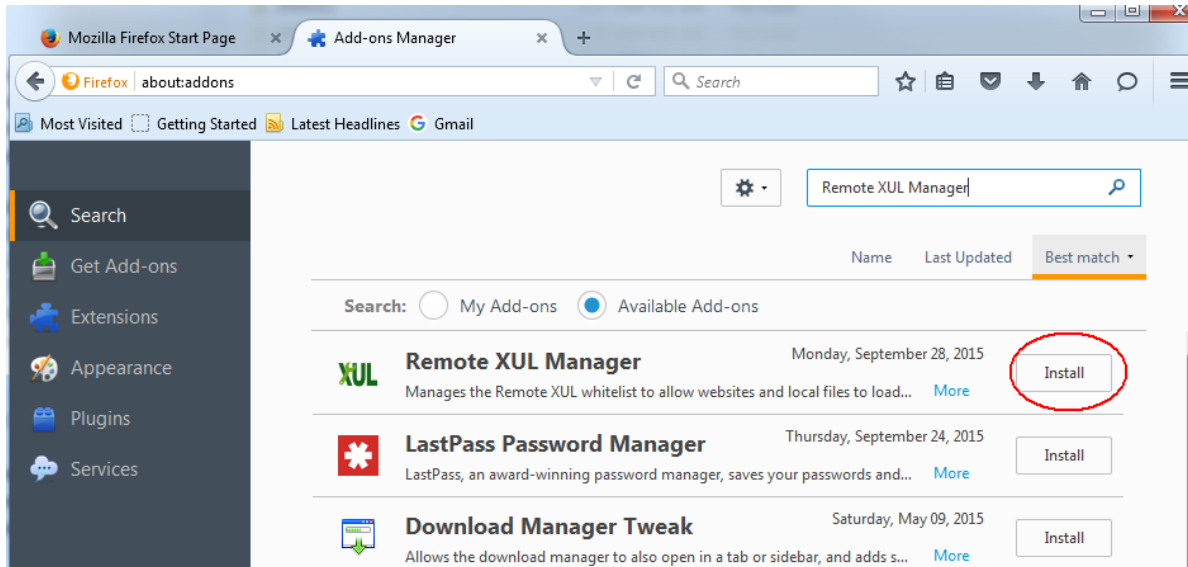

1. Launch Firefox.
2. Select **Open Menu>Add-ons** from the upper right.

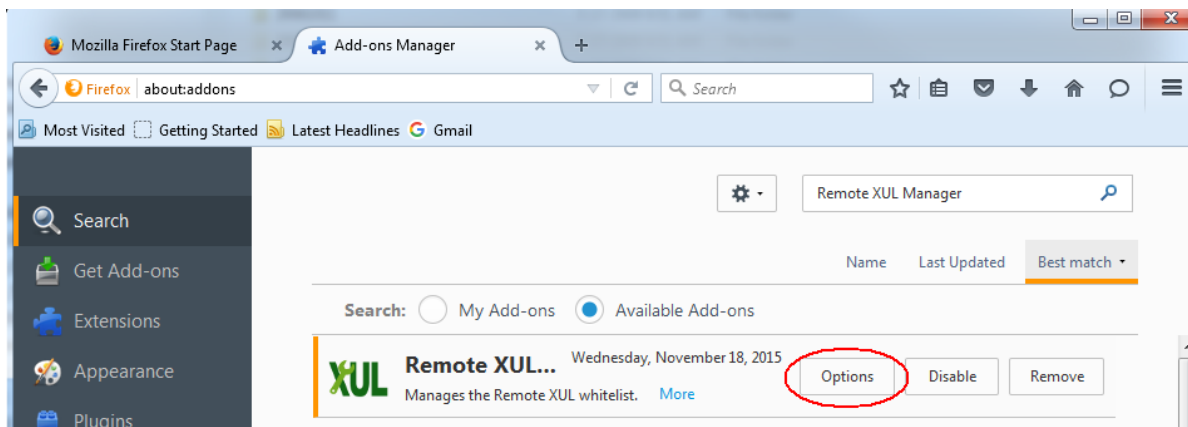

3. In the Search bar, type in **Remote XUL Manager**.

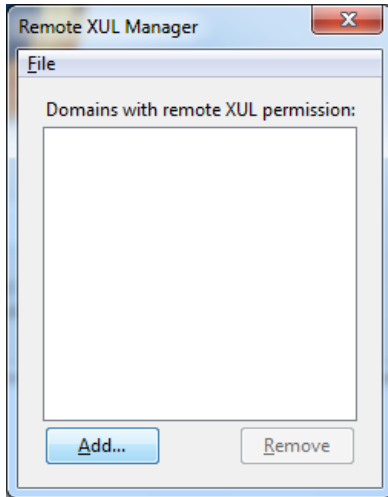

4. Click **Install** for the **Remote XUL Manager**.

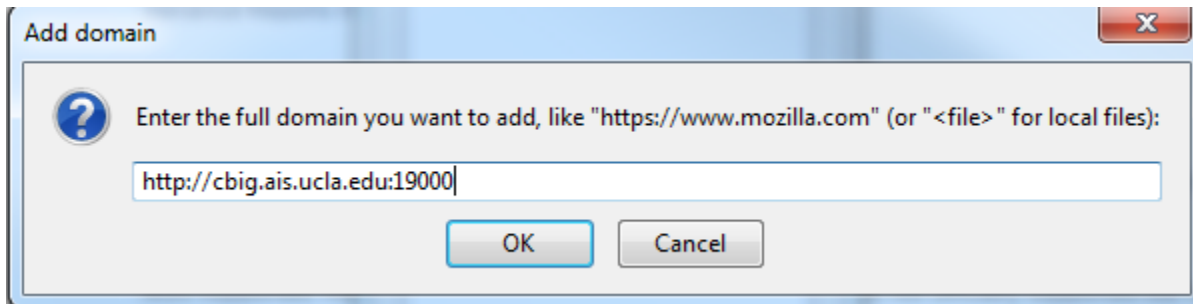

5. Click **Options**.

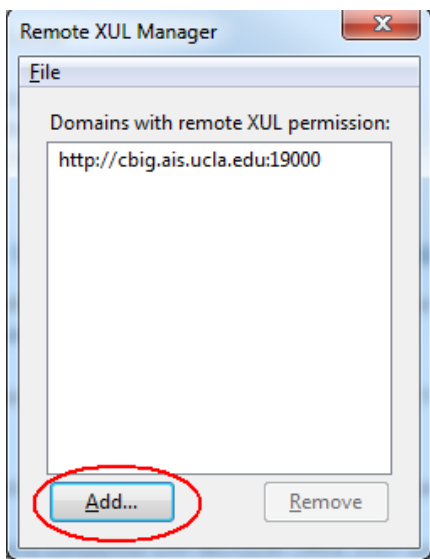

6. Click on the **Add...** button.

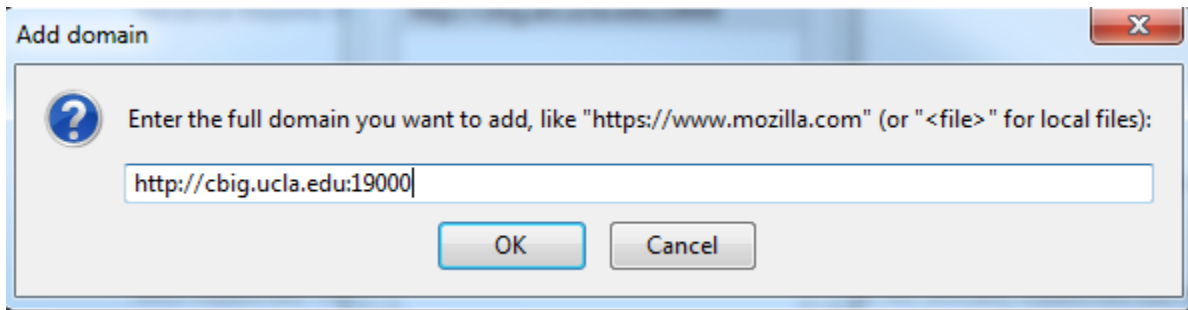

7. Enter <http://cbig.ais.ucla.edu:19000> in the box and click the **OK** button. Note that if you are using versions of Firefox earlier than 4.2, enter [cbig.ais.ucla.edu](http://cbig.ais.ucla.edu).

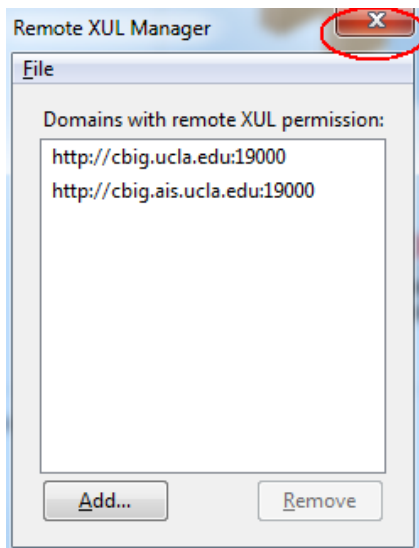

8. Click on the **Add...** button again.

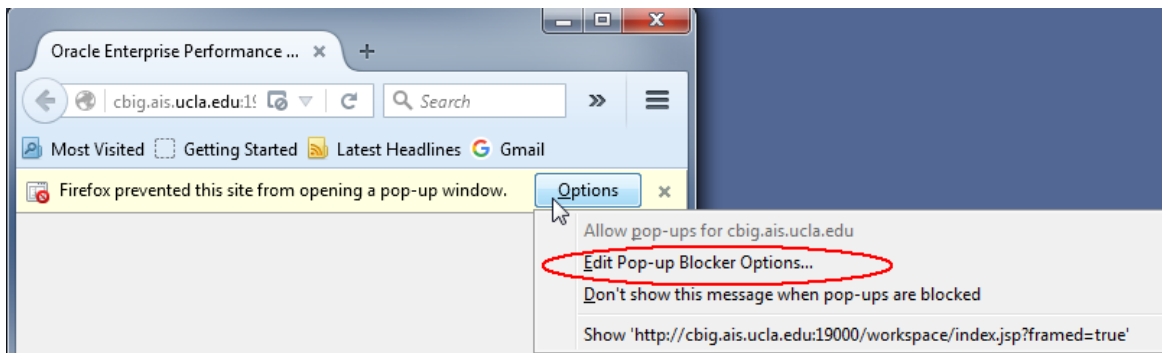

9. Enter <http://cbig.ucla.edu:19000> in the box and click the **OK** button. Note that if you are using versions of Firefox earlier than 4.2, enter [cbig.ucla.edu](http://cbig.ucla.edu).

10. Close the Remote XUL Manager box by clicking on the X.

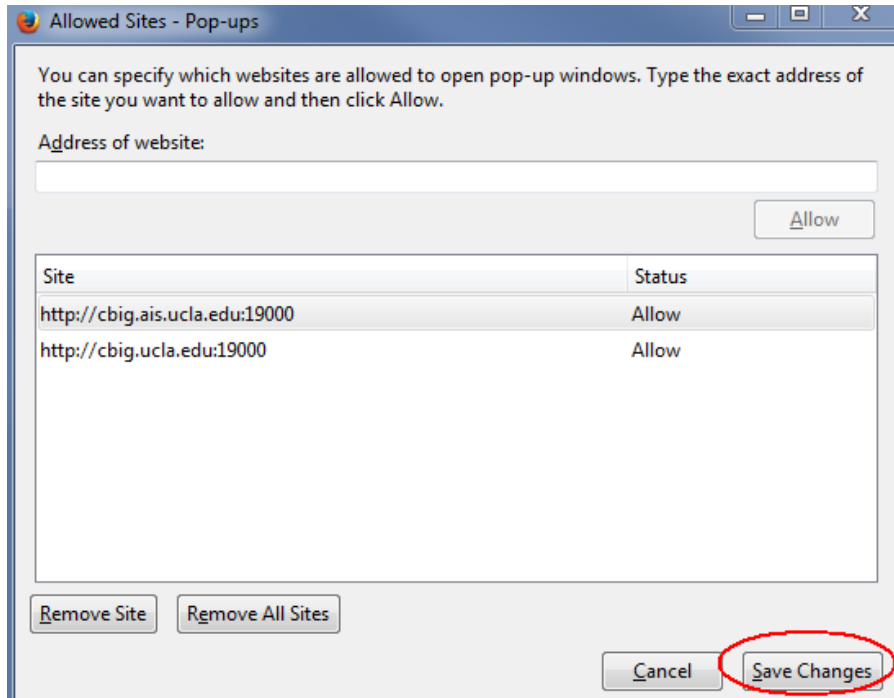

11. Open a Firefox session and enter [cbig.ucla.edu](http://cbig.ucla.edu). If you receive a message about a pop-up window being blocked, click on **Options** and select **Edit Pop-up Blocker Options**.

12. Type the following URLs into the *Address of website* one at a time and click *Allow*. Then click *Save Changes*.

*[cbig.ucla.edu:19000](http://cbig.ucla.edu:19000)*  
*[cbig.ais.ucla.edu:19000](http://cbig.ais.ucla.edu:19000)*

13. Access [cbig.ucla.edu](http://cbig.ucla.edu) to log onto the system.
